### Completion Requirement:

1. Complete all courses that fulfill requirements in the minor with a grade of C or higher.

**\*NOTE:** Electives courses used to fulfill this requirement must be taken at DSU. Chemistry courses numbered 3000 and above may not be used to fulfill requirements for both a Biology major and a Chemistry minor.

An academic minor is an attribute of a baccalaureate degree, not an entity by itself, and can only be awarded at the same time a student graduates with a bachelor's degree. Students do not need to declare a minor prior to submitting a graduation application, but the Minor Worksheet must be included with the student's graduation application. A minor may not be added to a previously awarded degree. Students must complete the minor requirements prior to or concurrent with completion of their bachelor's degree requirements. Minors are not available with associate's degrees.

Students may not declare a minor that is in the same department as their major. *Example:* English majors cannot declare any English minor.

Integrated Studies majors may not have an academic minor in the same department as either of their two declared emphases. *Example:* An Integrated Studies major with emphases in English and Spanish cannot receive a minor in either English or Spanish
