What is Kundalini Yoga?

Kundalini yoga as taught by Yogi Bhajan is a scientific technology for happiness. It extends the brain to imagine Infinity in its totality; then it is a gradual process to work for that experience. Every movement is scientifically originated, organized and projected. This is a discipline in which there is nothing but success. When practicing Kundalini Yoga, your inner power is awakened to unite with the Universal life force, empowering you with awareness beyond the ordinary. This awakened state gives you the capacity to expand your perspective and experience each day with increasing inspiration and joy. (www.Harjiwan.com)
